VALUES**

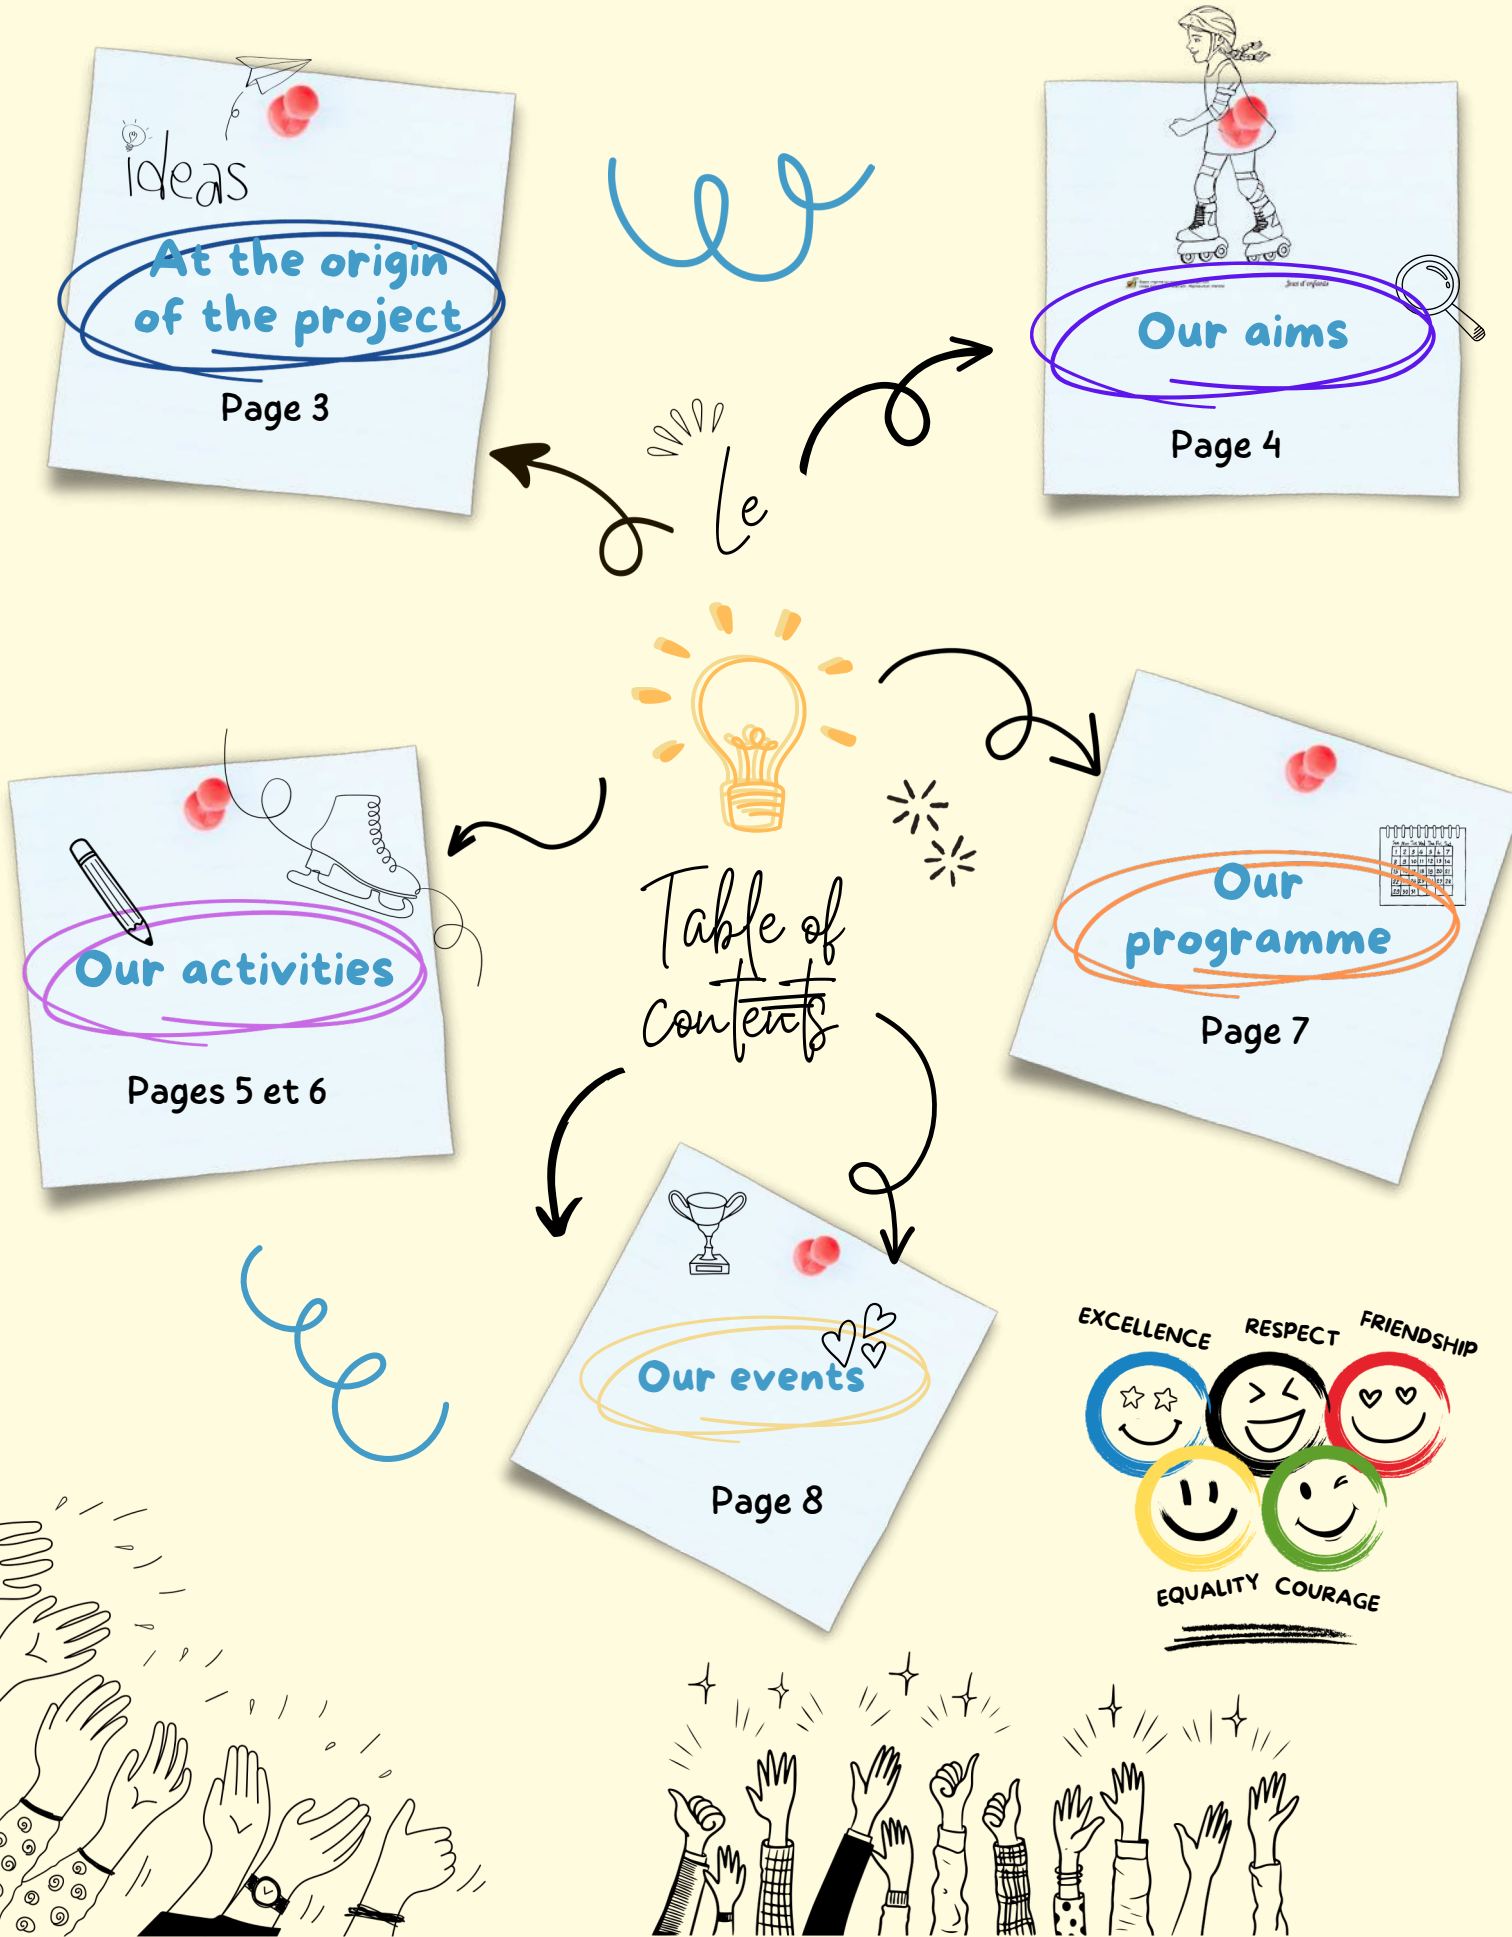

Co-funded by
the European Union

Erasmus+
Enriching lives, opening minds.

SPORT AND EDUCATION : SAME VALUES (SEMVA)

At the origin of the project

Fédération Française Roller
& Skateboard

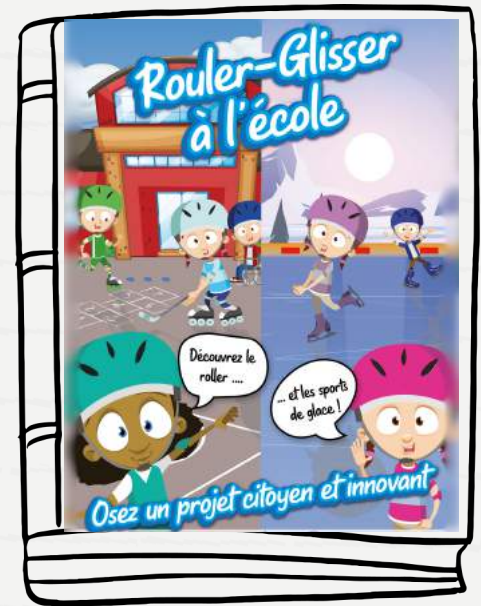

This project is an extension of the "Roll-Slide at School" program led by the French Skating Federation in partnership with the Ministries of Sports and National Education.

This program contributes to the acquisition of motor skills in students, in the same way as the "know how to swim" program.

These skills are essential for a child's development, hence their introduction in school.

As part of the SEMVA project, children will also be able to acquire a wealth of interdisciplinary knowledge and skills to make the link between sport and the subjects taught at school.

Led by the SPUC ROLLER, the project is carried out in partnership with a Romanian school (from Sutesti) and a popular education association from Pessac (Aux couleurs du DEBA).

KNOW

KNOW
ROLL - SLIDE

Our aims

Create two Escape games "Where's SEMVA ?"

Promote the values of the Republic and those of the European Union.

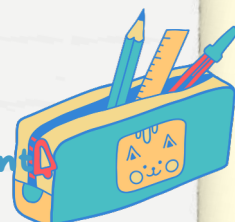

Raising children's awareness of sustainable development and ecology.

Promote interdisciplinarity between physical education and sports, French, modern languages, moral and civic education, history and geography, science and technology, etc.

Implement an eco-responsible approach.

Exchanging and pooling our educational practices.

Create synergies and networking.

Aux couleurs

du deba

Our educational activities with students

To discover and learn about the symbols and values of the Republic as well as those of the European Union, students will do research, group activities and individual work.

In this year of the Olympic and Paralympic Games, students will work on the history of the Games and its values and its symbols. They will also have the opportunity to chat with the Paralympic judo athlete, Karima MEDJEDED.

To develop eco-friendly gestures on a daily basis, they will raise awareness of sustainable development and ecology through collective reflections and discussions in class. Videos and quizzes will complete their knowledge.

They will be able to make proposals to develop eco-responsible practices in the school and eco-gestures in the classroom.

Finally, in order to improve their English and participate in the planned videoconferences with Romanian students, They will have oral and written expression classes.

To self-assess and increase their knowledge and skills, each student will have a roadmap with games and various information related to the themes of the project.

Our sport activities with the students

Students will develop their motor skills by practicing sports in general and board sports in particular (rollerblading and ice skating).

To do this, they will be initiated by the SPUC Roller as part of the national "Roll-Slide" program.

To acquire the fundamental skills of rolling/sliding, students will have workshops on movement, artistic expression and collective games.

At the end of the program, they will know how to roll/slide, propel themselves, stop, turn, balance and overcome an obstacle.

The workshops will end with a sports meeting between the different classes participating in the program and related to classroom activities..

**To
organize**

Meetings

we will do two face-to-face meetings and three online meetings.

March 2024 : Kick off meeting.

Romanian team will come to Pessac.

June 2025 : Clousre meeting.

SPUC Roiller and Aux couleurs du DEBA will go to Sutesti in Roumania.

**To
write**

Communications

To follow **our news**, we will create :

- one site web
- one facebook page
- somes newsletters.

Escapes Games

**To
invent**

Children will have a challenge to overcome:

Find SEMVA, which is the only one who knows the magic phrase so that the Erasmus planet is no longer polluted.

**To
build**

Educational e-book

He will present the key steps to lead the SEMVA Escape Games.

It is a **ready-to-use guide** for the actors of the educational community (teachers, animators, parents, etc.).

Events Don't Miss

June 2025

Project Closing Event.

- Presentation of the pedagogical guide "SEMVA's Escape Games"
- Video report of the project
- Feedback from the educational community involved.

04

April 2025

Children take part in the "SEMVA Escapes games" (outdoor)

03

December 2024

Children take part in the "SEMVA Escapes games" (indoor)

02

April 2024

Opening event during Olympic and Paralympic Week.

- Project presentation
- Roller initiation
